SUMMARY

I have worked on many DeFi, DEX, DAO, NFT marketplace, and DApps based on Ethereum blockchain, Binance smart chain, Polygon, Avalanche, and Solana, and I have extensive 3+ years of experience in developing and writing Smart Contracts for Ethereum-compatible networks.

I have also used Web3 to integrate several Smart contracts of different blockchains into frontend designs. I have 3+ years of experience using web3 and ethers.

Exploring and applying the latest development in Blockchain and other relevant technologies to solve real-world problems. I am reliable and strive to go above and beyond to deliver a project that meets and exceeds the expectations of the client.
